25 November 1968

Mr. Bannerman via Mr. Coffey

25X1A

1. Attached is a memorandum for your signature returning to the Director of Security his request for approval to install 4 IBM 2260 remote terminals in connection with the proposed consolidation of Special Clearance Records.

2. Clipped to the Security memo are some of the kinds of questions I think should be answered as an integral part of proposals of this kind and which cause me to recommend that the paper be returned. Some of these questions apply only to this paper. Others can be applied more generally. I would be interested in your reaction to the substance of the latter because it will be useful to me in attempting to develop a pattern for ADP proposals to follow.
